

Aidan Sonntag

Virginia Tech Aerospace Engineer

aidan27@vt.edu | [linkedin.com/in/aidan27vt](https://www.linkedin.com/in/aidan27vt) | aidan27vt.github.io

EDUCATION

Virginia Polytechnic Institute and State University

Aug 2024 - May 2028

Blacksburg, VA | B.S. Aerospace Engineering | GPA 3.36 | Expected May 2028

EXPERIENCE

BIM Engineering Intern | PayneCrest Electric

May 2026 - Aug 2026

St. Louis, Missouri | Revit, AutoCAD, Navisworks

- On-site at Boeing supporting a hangar expansion as part of the electrical contracting team.
- Designed and detailed electrical equipment layouts and conduit routing in Revit and AutoCAD.
- Coordinated electrical routing against fixed mechanical and structural systems to resolve interference before field installation.

Food Server | The Shack Breakfast & Lunch

May 2025 - Aug 2025

St. Louis, Missouri

- Coordinated with team members on side work and service issues during high-volume shifts.
- Managed order timing to keep tickets moving and deliveries on schedule.

Member | Galileo Engineering Living-Learning Community

Aug 2024 - May 2025

Virginia Tech, Blacksburg, Virginia

- Collaborated within a residential engineering cohort on team projects and technical problem-solving.

PROJECTS

Subsonic Wind Tunnel | Solo, Personal Project

Jun 2026 - Present

St. Louis, Missouri | SOLIDWORKS, FDM 3D printing

- Designed and built an open-circuit subsonic wind tunnel over a meter long, entirely by myself.
- Modeled in SOLIDWORKS as a sectioned assembly, fabricated on a 3D printer, and assembled by hand.
- Built a custom smoke rake to visualize flow over test models in the working section.
- Documentation: aidan27vt.github.io/Wind-Tunnel

CERTIFICATIONS

Certified SOLIDWORKS Associate (CSWA) | CAD Design | Dassault Systèmes | ID C-DL8CX2W6AG

SKILLS

CAD & Modeling | SOLIDWORKS, Revit, AutoCAD, Navisworks, Bluebeam

Programming & Analysis | Python, MATLAB, Mathematica

Fabrication | FDM 3D printing, 3D printing slicer, hand assembly

Other | Microsoft Office
